

ECO CAF[®] 3-0G

ECO CAF[®] 3 Compressed Air Foam System is designed to meet the budgetary restraints of both fire departments and industry nationwide. ECO CAF[®] 3 uses no outside pressure vessel to operate 100 - 120 PSI from a standard air compressor. ECO CAF[®] 3 dispenses approximately 30 gallons of finished foam. Light weight and compact, the ECO CAF[®] 3 can use any style of foam including Class A, B, AFFF and AR foams. In a time when everyone is feeling the pinch, ECO CAF[®] is leading the way with effective, economical solutions for today's fire fighting needs.

PERFORMANCE

- Pressure Vessel Capacity: 3 Gallons
- Finished Foam Capacity: Up to 30 Gallons
- Throw Distance: Up to 40 Ft.
- Foam Expansion: 20:1 Expansion Ratio

SPECIFICATIONS

- Width: 9 1/2" Height: 28" Diameter: 10"
- Weight Empty: 9.5 lbs.
- Weight Full: 18 lbs.
- Operating Pressure: 100 – 120 PSI. Discharge
- Hose: 3/8" x 20" Hard Rubber Handheld Line
- Discharge Tip: Plastic Straight Tip Expellant
- Stainless Steel Oil Filled Gauge
- Type: Compressed Air
- Foam Types: Class A, B, AFFF & AR Foams
