

FIREPROOF BLANKET FOR EFFECTIVELY EXTINGUISHING VEHICLE FIRES

LEADER STOP

SILICONIZED FIBERGLASS FIREPROOF BLANKET

- Easily deployed by 2 operators.
- Silicon glass fiber resists high temperatures to 1800° F (1000° C)
- Large enough to cover most cars (20ft x 26 ft (520 ft²))
- No maintenance or servicing and can be reused up to 10 times.
- Quickly isolates a burning vehicle to prevent the spread of fire and eliminates the release of smoke and fumes
- Limits damages
- Makes it easier for firefighters to quickly control a vehicle fire
- Fire will be completely smothered within 20 minutes.
- Can be deployed for motorcycle fires, metal dumpsters, machine tools, etc.
- *NOTE: Not applicable to Lithium-Ion batteries at this time.*
